Tec among the top 200 universities in the world

[David Garza](#), Executive President of the Tecnológico de Monterrey Education Group, recognized the efforts of the Tec community.

*“We recognize those **professors, researchers, students, and employees** whose efforts and dedication are key to continuing to strengthen the academic excellence, research, and importance of our institution, which enables us to ratify our position among the **top 200 universities in the world.**”*

*“As we head toward 2030, we want to strengthen the **global prestige of Tecnológico de Monterrey** to attract the best talent. We’ve defined research as one of our strategic priorities because we see this as highly valuable for an academic institution of excellence and we’re motivated by the possibility of the Tec having a greater impact on society through it,” he added.*

[Juan Pablo Murra](#), Rector of Tecnológico de Monterrey, mentioned its commitment to continue working on **education of excellence, applied research, and social impact projects** that transform the lives of people and communities.

*“Being among the group of 200 leading universities in the world is possible thanks to the **talent and leadership** of our faculty, researchers, students, and academic and administrative teams, who are driving solutions that **transform reality** and reaffirm the institution’s goal of preparing leaders who are capable of tackling the major challenges of our times,” said Murra.*

Feniosky Peña-Mora, Executive Vice President of Research and Dean of the School of Engineering and Sciences, highlighted that Tec de Monterrey’s presence in the **top 200 of the QS World University Rankings 2026** reflects sustained progress on its institutional strategy in science, technology, and innovation.

“With over 1,100 researchers across 6 Schools, 3 Institutes, and 6 Research Centers, we’re generating knowledge that affects public policy, industrial development, and social wellbeing. This recognition consolidates the Tec as a key stakeholder in the global research ecosystem and making an impact from Latin America,” said Peña.

The indicators on which the Tec was best placed in this edition are: Employment Outcomes, Employer Reputation, and Academic Reputation.

Evaluation criteria of the rankings

These are some of the **most important university rankings in the world** owing to their method and the volume of information processed to prepare them.

British evaluation firm QS included the following indicators with their respective weightings in this twenty-second edition:

- ***Academic Reputation (30%)***
